Serve the Military Community**

*Partnership increases awareness of services and opportunities available to veterans and their families,  
families of active-duty military, and caregivers*

Phoenix, AZ (October 23, 2018) - Veteran Tickets Foundation (Vet Tix) and Cohen Veterans Network (CVN) are teaming up to support the military community. The two nonprofits have officially partnered to increase awareness of their respective services and advance their common goal of providing veterans and military families with resources and support services for mental health care.

“We are thrilled to partner with CVN and felt it was a natural fit between our two organizations,” said Mike Focareto, Vet Tix founder and CEO. “Our events not only provide entertainment and lifelong memories, they also help to reduce stress, strengthen family bonds and enhance the quality of life of our VetTixers and their families. The relationship with CVN will introduce VetTixers to mental health resources, while continuing to provide them with memories that last a lifetime. We care deeply about meeting mental health needs and are excited to help bring awareness to the resources offered by CVN.”

“Collaborating with Vet Tix furthers our mission of improving quality of life for veterans and their families,” said Anthony Hassan, CVN President and CEO. “We believe this partnership will make additional veterans and families aware of our services and help lead us closer to our vision of ensuring every veteran and family member is able to obtain access to high-quality, effective care.”

Vet Tix events provide service members and veterans a unique opportunity to spend quality time with one another and family to strengthen social connections and reduce stress. Since 2008, Vet Tix has provided more than 5 million free event tickets to its community of more than 900,000. Attending events enables VetTixers to create life-long memories with their friends, families and fellow VetTixers. To learn more about Vet Tix and how to get involved, visit the [sign-up page](#).
